3D profiled panel 5/5 mm, mesh size 50 x 200 mm

The 3D wire panels made by Van Merksteijn excel both in stability and durability. This high quality is ensured by the use of top-quality materials and their careful processing using state-of-the-art production techniques. The 3D profiled panel is an aesthetically attractive and at the same time cost-efficient alternative for classic double wire panels. The special 3D technique ensures that in spite of its limited weight this profiled panel is still astoundingly stable.
